Prepaid Gift Card

A Prepaid Gift Card is a stored valued card that carries a VISA logo. It is not a debit card, as it is not linked to a checking or savings account. It is not a credit card, as the funds that can be spent are funds already placed on the card. This Gift Card is not reloadable. The transaction types allowed with Gift Cards are: Signature POS & PIN POS. Domestic use only.

The Gift Card is an option for cardholders wanting to purchase a gift for someone but do not know what to purchase them. The Gift Card is more secure than cash and a convenient way to provide funds as a gift. In addition, Gift Cards have the added benefit of Zero Liability on all signature base fraudulent activity.

Card Destruction

All Visa Gift Cards are issued to the Credit Union with a seven year expiration date. In 2009 the Card Act requires all Visa Gift Cards to have a minimum five year expiration date when sold to a consumer.

LSC gives Credit Unions two years to sell the cards before the cards are no longer valid. If any of your Gift Cards have reached a five year expiration date you must properly destroy the cards because of their invalid status. Credit Union Administrators will deactivate cards with less than a 5 year expiration date through the Deactivation function in Prepaid Access.
